1:00 tour UPS Air Hub
*Return around
5:00 pm*

We would like to thank the Philadelphia Regional Port Authority and UPS for opening their facilities to our group.

Philadelphia Port Tour

Join us on a bus trip for a tour of the Philadelphia seaport facilities and the UPS hub at the Philadelphia International Airport.

The Ports of the Delaware River shipped over 80 million tons of freight in 2009, making them one of America's Top 10 Port Complexes. We will have a chance to see the marine terminals that

move containers, steel, forest products, fruit and cocoa and be on-dock to see the giant cranes and container moving equipment.

We will also get an inside look at the East Coast Regional UPS air hub, which averages 43 flights every day. The 681,000 square foot technology-packed facility has the capacity to sort 80,000 packages/documents per hour. A Captain UPS pilot will join us for the tour and presentation.

REGISTRATION

Name: _____

Cost: \$25 WTC Members/ \$45 Non-Members

Additional Attendees: _____

Checks and Visa/MasterCard are accepted
