World Trade Center Harrisburg and MANTEC have partnered on a series of company tours showcasing our members and clients who excel in international trade and innovation. Join us and learn more about York Wallcoverings and their successes and challenges in competing in the global marketplace.

Since 1895, York Wallcoverings has been manufacturing wallpaper from the same factory location in York, making the company the oldest and largest wallcoverings manufacturer in the United States. York Wallcoverings creates residential and commercial wallcoverings, and is one of the only printing companies in the world to own and operate five different types of printing presses, ranging from some of the oldest and rarest to some of the most modern, which you will see on the tour. York Wallcoverings also manufactures the popular RoomMates Décor products which are peel-and-stick removable and reusable wall decals. York Wallcoverings' products are sold in big-box, online and specialty retailers, as well as through an extensive network of interior design firms and through domestic and international distributors. The company sells its products in more than 85 countries with a market leadership position in North America and an expanding presence across Asia, Europe, Latin America and the Middle East.

Participation is limited, so register early to reserve your spot!
