WESTFALIA TECHNOLOGIES, INC.

For over 35 years Westfalia Technologies, Inc. has been committed to innovating and implementing logistical solutions utilizing automated storage and retrieval systems (AS/RS) and conventional material handling equipment. Our success has been shaped, to a large extent, by the satisfaction of our customers.

Westfalia, headquartered in York, Pa., is a leading provider of logistics solutions for plants, warehouses and distribution centers. Since 1992, Westfalia has helped companies in the food, beverage, chemical and other major industries to optimize warehouse processes and maximize efficiencies and savings.

Today, Westfalia Technologies, Inc. is a key player in the automated materials handling and logistics sector. Collectively, Westfalia USA and Westfalia Germany employ approximately 300 staff around the globe that embody the customer service experience that is intentional, consistent, differentiated, and valuable for each and every customer.
